

PROPERTY COMMITTEE REPORT FOR 2017

We had several projects in 2017 and have many more in the future when funds become available.

We painted the Education Center dining hall and replaced the accordion doors with doors from upstairs. A big thank you to Stan Friesen and his crew for fixing the wall so the new doors would fit. We had a very dedicated crew of volunteers who spent evenings and Saturdays painting so we could be ready for our 100th Anniversary celebration in April.

When the snow cleared the ornamental grasses were planted in the newly landscaped area around the church. These grasses were donated to First Lutheran by Bill Rensvold and Shane & Diann Gibson.

New concrete was poured by the South doors and new windows were installed in the Narthex in the Fall. When the weather warms up this spring we will be staining the siding under these windows.

The north windows of the church office were painted.

We held another cleanup day this time concentrating on the kitchen floor. The toilets in the upstairs bathrooms were replaced also on that day.

We have a wonderful facility and we wish to thank those who take the time to help maintain it.
